

ICT

Year 10

Topics studied:

R081 - Students will learn the pre-production skills used in the creative and digital media sector. It will develop their understanding of the client brief, time frames, deadlines and preparation techniques that form part of the planning and creation process.

R082 – Students will understand the purpose and properties of digital graphics, and know where and how they are used. This will enable them to plan the creation of digital graphics, create new digital graphics using a range of editing techniques and review a completed graphic against a specific brief.

R085 – Students will understand the basics of creating multipage websites and will demonstrate their creativity by combining components to create a functional, intuitive and aesthetically pleasing website.
