

Year 9 Art Home Study

Year 9-

Lesson 1-create a continuous line drawing from an object from their home that can relate to you project (eg. Shells, sweets, biscuits)

They should draw this from 'first hand observation' (a real object not a picture) in their sketchbook as a practice for observational drawing. You may choose the size of your drawing.

Lesson 2- Now try to create a refined drawing of the same object, use your phone to take a photo of the object and grid the object. (I use Drawing Grid for the Artist or Grid Maker on the app store) draw the same object into your sketchbook this time focusing on realism and accuracy. You may choose the size of your drawing.
