
Accounting

Years 12 and 13

Topics studied:

Students study both financial accounting and the recording of past events, and management accounting as a means of planning and decision-making. Students also develop an understanding of the principles of ethical behaviour which inform the actions of all those working within an accounting environment.

Students explore the double entry model in detail and the accounting principles and concepts that form the foundation of all financial accounting techniques.

Students learn to make judgements and solve problems, taking account of financial and non-financial factors.

Subject content:

1. An introduction to the role of the accountant in business
2. Types of business organisation
3. The double entry model
4. Verification of accounting records
5. Accounting concepts used in the preparation of accounting records
6. Preparation of financial statements of sole traders
7. Limited company accounts
8. Analysis and evaluation of financial information
