SUGGESTIONS OF SCIENCE ACTIVITIES THAT YOU COULD COMPLETE ARE:

- Read a book on a Scientific topic, and write a review of this
- Perform an experiment that is safe to do at home and either film it or take photographs
- Visit a Science Attraction such Museum of Natural History in London, Thinktank in Birmingham, the Royal Observatory Greenwich, or somewhere similar, and take pictures or write a review
- Visit a Site of Special Scientific Interest (SSSI) or an Area of Outstanding Natural Beauty (AONB) and write a summary of what you've seen, such as fauna or flora
- Attend and participate in Science Club for one half term (minimum of 6 sessions) – Open to Y7 and Y8 students only
- Write a summary of a news article related to a scientific subject
- Research and create a poster on an important person or event, such as Marie Curie, Albert Einstein, Isaac Newton or the discovery of the structure of DNA
- Produce a Science fact file about any topic of your choice
- Watch a scientific documentary such as Planet Earth or Walking with Dinosaurs etc, and write a review
- Build a labelled model of a specialised cell
- Build a planet from our Solar system or produce a fact file about it
- Research an unusual element and produce a fact file about it
- Complete 500 independent Educake questions (not as part of homeworks)
